

A fantastic journey to the core of reality

Wald tells the story of a young man who overcomes the conflicts of Faust, Harry Haller or Siddhartha and takes a step forward into a future, one which acts upon us and manifests among us even today. It's an enormous undertaking to create a Buddha who goes beyond the Buddha we have come to know and accept, especially for my friend, who - expelled from Vienna, pursued by Islamic terrorists - makes his way to Kashmir, where he finds his long-sought love and the reason for his existence. A comedy of salvation for theists and atheists, a humorous trip full of surprises and, as it seems, the long-sought master key to everyone's in this world.

Don't miss the next volume!
